

LIFE APEX Project (LIFE17 ENV/SK/000355)

Systematic use of contaminant data from apex predators and their prey in chemicals management

The **AIM** of LIFE APEX is to improve systematic use of chemical monitoring data from apex predators and prey for protecting human health and the environment.

The **OBJECTIVES** of LIFE APEX are:

1. To demonstrate four novel, regulatory applications of chemical monitoring data from apex predators and prey.
2. To support and sustain regulatory take-up of these applications.
3. To replicate and transfer LIFE APEX approaches and methods with partners across Europe.
4. To disseminate and communicate the LIFE APEX approaches and methods and in particular optimize uptake by regulators and industry.

APEX predators

Project duration: 4 years (September 2018 to August 2022)
Project budget: €3.35 M (of which EU LIFE funding 60%)
